

REMARKS

Applicants are submitting this Amendment herewith in response to the Notice of Allowance dated April 22, 2005. The Amendment requests entry and change of the Title as indicated above. Applicants had attempted to make such change previously and are requesting again via this Amendment that such change be made to the Title and further be reflected on the patent that issues from this application.

Further, Applicants submit that the Notice of Allowability should indicate that acknowledgment of a claim for foreign priority has been made where all copies of the priority documents have been received in the National Stage. On June 30, 2005, Examiner Kevin Quinto contacted the undersigned attorney of record regarding same and indicated that such change would be made to the record to reflect that a foreign priority claim had been made and that all copies of the priority documents have been received.

If the Patent Office should have any questions regarding this Amendment, Applicants kindly request that the undersigned attorney of record be contacted directly.

Respectfully submitted,

BELL, BOYD & LLOYD LLC
